

# ACHIEVEMENTS

We were featured in The Hindu – home Interiors supplement for our one of its kind concepts.

We have Eco Friendly Concepts – reducing usage of wood by 50% to 75%.

We have completed 350+ projects.

10,000 hours of R&D for the Alloy Concept

# Our Work

# Testimony

Ms. Viraja Shankar, Bangalore

“Doing up the interiors of my new home was indeed a daunting task, till I chanced upon NuSpace on the Internet.

Shruthi and her able team worked with expertise around my requirements with true professionalism.

One can't help but appreciate the quality of materials used and the precision with which it was assembled.

Shruthi's calm demeanor, innovative inputs and resourcefulness went a long way in putting together my dream home.”

# Testimony

Ms. Gayatri Rao, Bangalore

"Our architect referred us to NuSpace for the modular Kitchen in our new home in Shoba Habitat, Whitefield.

Right from start, Shruthi has a great eye for detail. We also loved the suggestions given to us at every stage.

Aesthetics along with Ergonomics and functionality were key elements of design. We are extremely satisfied with the entire project management.

Its been 4 years and not a single service has been required.

Strongly recommend NuSpace and the aluminium kitchen concept - its totally designed for our Indian ways."

# Kitchen & Dining Contemporary Style

# Testimony

Mr. Srikanth, Bangalore

“We were referred to NuSpace by our family friend who had also done their home interiors with NuSpace.

The challenge was my children(son & daughter), wanted a very contemporary theme and my wife, a very classic- victorain theme. Honestly, we met a couple more interior companies and explored in great detail various design suggestions.

But we loved the way NuSpace beautifully and harmoniously integrated both designs together.

Not just design, but also during the execution of the project, couple of minor delays were communicated to us before hand and they managed the delivery very well. It was a delight to work with Shruthi and her team and strongly recommend NuSpace to you. .
